- Python
- Mysql
- AJAX
- Communication
- Problem Solving
- Time Management
- Team player

Experience - 1 year

Laravel Developer / Php Developer

SOFTROBO SYSTEM - Lahore, Pakistan | Sep 2023 - Mar 2024

I contributed significantly to Softrobo Systems as a Laravel/PHP Developer, working on various projects, including a dynamic chat application.

1. **Laravel Proficiency:** Utilized Laravel for efficient and maintainable code, streamlining development processes.
2. **Chat App Development:** Led the creation of a user-friendly chat application with features like secure authentication and real-time messaging.
3. **Team Collaboration:** Worked closely with diverse teams to overcome project challenges and ensure timely delivery.
4. **Best Practices Advocate:** Enforced coding standards to enhance security and reliability in application development.

Technical Skills:

- **Laravel Framework:** Applied for rapid and effective project management.
- **PHP:** Employed for server-side scripting, ensuring robust functionality.
- **MySQL:** Managed databases securely for data storage and retrieval.

Outcome:

My experience at Softrobo Systems enriched my skills in Laravel/PHP development, particularly in crafting user-centric applications like the dynamic chat platform. This stint emphasized my commitment to efficient solutions and collaborative teamwork.

Projects

PHP chat app

Softrobo System

- programming
- cricket

Overview:

I designed and built a user-friendly PHP Chat App as a testament to my web development skills. This app boasts essential features for seamless communication and user interaction.

Key Features:

1. **Secure User Access**
2. **User Search**
3. **Real-Time Messaging**
4. **Profile Management**
5. **Online Status**

JobPortal Laravel

https://github.com/hidayat121221/job_portal

Tools: Php Laravel ajax bootstrap

Project: Job Portal Website

Overview: Designed and developed a comprehensive job portal website using the Laravel framework. The platform aimed to connect job seekers with potential employers, providing a seamless and efficient job search experience. The project involved the implementation of various features to enhance user engagement and streamline the hiring process.
